Biblical Foundations

BIBLICAL STUDIES & THEOLOGY *Explore historical and theological depth of Scripture and its relevance for ministry today.*

Old Testament Survey

The first 39 books of the Holy Bible form the foundation for three world religions, touching almost half of the world's entire population. The Hebrew Bible, or First Testament, is foundational to the Christian faith. Our Bible could be likened to a two-story building where the second story provides the best view of God, Jesus, and the future. But without the first story, the Old Testament, there could never be a second story – it is foundational to all that we believe.

STUDENT WILL GAIN

- An overview of each book
- Deeper insights into key passages
- Bonus materials

Calling and Destiny

There is a real need to discern the will of God in our lives. The Bible points us to a God who is our loving Heavenly Father. If we accept the fact that our Heavenly Father loves us and wants the best for us, would it not be logical for us to believe that He has planned for us? This course will bring you on a journey to discover God's personal calling and will for your life.
